PROFESSIONAL SUMMARY

Dedicated and versatile software developer pursuing a Master of Computer Applications with a strong foundation in Python, C++, and database management. Experienced in building full-stack and hardware-integrated applications, ranging from AI-powered tools to embedded systems. Eager to leverage technical expertise in software engineering and development to contribute to innovative tech teams.

EDUCATION

Adamas University <i>Masters of Computer Applications</i>	Kolkata, India June 2025 – June 2027 (Expected)
University of Engineering and Management <i>Bachelor of Computer Application (CGPA: 8.21)</i>	Kolkata, India August 2022 – July 2025
G D Goenka Public School, Dakshineswar <i>Higher Secondary Education (Percentage: 61%)</i>	Kolkata, India Completed 2022
Delhi Public School Bidyayatan Sarani <i>Secondary Education (Percentage: 81%)</i>	Kolkata, India Completed 2020

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, SQL, Java
- **Databases:** MongoDB, MySQL
- **Frameworks & Tools:** FastAPI, Git, Github, Linux
- **Embedded Systems:** Arduino, IoT Sensors

PROJECTS

Mobile Application for Women Safety <i>Tech: Java, MongoDB, API, Android Studio, Location Services</i>	College Project
• Developed a safety application featuring live map tracking to display nearby users for immediate assistance. • Integrated an SOS trigger mechanism that automatically records audio and video, broadcasting emergency data to nearby users.	
Radar with Arduino Kit <i>Tech: C++, Arduino, Ultrasonic Sensors</i>	College Project
• Engineered a functional radar system using an Arduino kit to scan and detect objects entering a specified radius. • Programmed real-time distance calculation and feedback loops for structural spatial awareness.	
Own Portfolio Website <i>Tech: HTML, CSS, JavaScript</i>	Personal Project
• Developed a responsive personal portfolio website to showcase academic projects, technical skill sets, and professional profiles.	

ADDITIONAL INFORMATION

- **Languages:** Bengali, English, Hindi
- **Hobbies:** Playing Computer Games, Watching Movies and Web Series, Travelling
